Make your own 3D Owl!

Happy Meal

❶ Ask an adult to use scissors to cut along the dotted lines, including the dotted lines around the head and ears of the owl.

❷ Fold along the straight, solid lines between all of the boxes and the boxes and the tabs. With an adult present, use a glue stick to stick the tabs to the box to assemble it.

❸ Ask an adult to cut out the owl's wings, making sure to fold along the straight lines on these too. Use a glue stick to stick these onto the wavy lined boxes on either side of the owl's body.

❹ Ask an adult to cut out the owl's feet, making sure to fold along the straight lines on these too. Stick these to the wavy lined boxes on the bottom of the owl.

What does Frankenstein use to wash his hair?

Sham-boo!
